10.2 Recommendations

ISO/TC 12 decided to follow the recommendation TF1: 1:2021, Doc. N 1402:

Relationship to IEC 80000-15, Logarithmic quantities

It is decided that any revision needed of ISO 80000-1--12 proceeds without waiting for IEC WD 80000-15 *Logarithmic quantities and their units* to be finished. However, an exception, agreed with the PL of part 8, *Acoustics* was that the IEC work on their part 15 should be completed before reviewing ISO 80000-8 since the two parts should be coordinated.

Resolution 150 (Zoom 6, 2021)

ISO/TC 12 decided to follow the recommendation TF1: 4:2021, Doc. N 1402:

Corrected version of ISO 80000-2, Mathematics

ISO/TC 12/TF 1 decides to recommend ISO/TC 12 to prepare a corrected version that addresses the editorial comments and blatant errors in the document, see Table 1 in N1411. ISO/TC 12 decided to confirm ISO 80000-3:2019, *Space and time*, and at the same time to ask ISO/CS to send the document for an earlier systematic review in October 2022.

It was noted that for part 3 *Space and time*, there were equal numbers of TF1 votes for doing a technical revision, or instead waiting for the next 5-year SR.
